

Please STOP Sinclair Broadcasting's use of public airwaves in this unlawful manner. In fact, it is your obligation to intercede for the public interest and welfare in this case. Our Democracy's very existence is dependent on a free press and the strict enforcement of anti-monopoly laws which provide fair and unbiased news to the public. You must act to prevent this blatant attempt to subvert the very reason the FCC exists or you will become extinct. Don't let the American people down at this critical time in our history, stand up for the principles of justice and fair communications.

Thank You!

Lawrence & Irene Rinne
